PROFILE

I am a software developer, currently a computer science student.

My goal is to enter the software development field, and I possess behavioral skills that enrich my professional profile. I am characterized by proactivity, diligently seeking answers while also providing support to team members. Effective communication, collaborative work, and decision-making abilities are attributes I value and that significantly contribute to my professional performance.

KNOWLEDGE

- Programming Languages: C and Python.
- Database Management: Experienced with PostgreSQL.
- Front-end Development: Skilled in HTML, CSS, and JavaScript.
- Version Control: Proficient in Git and Github.
- Agile Methodologies: Experienced in Scrum and Kanban.
- Intermediate English: Capable of engaging in everyday conversations without difficulty.

PROFESSIONAL EXPERIENCE

Junior Company: Beetsjr - Front-end Developer

August 2021 - Present

- Developed institutional websites using HTML, CSS, and JavaScript.
- Engaged in the commercial area as a member (Aug 2021 - Dec 2022) and as a commercial director (Jan 2023 - Dec 2023).
- Currently serving as a member in the Projects area (Jan 2024 - Present).

EDUCATION

Technical - Electronics

2017 - 2019

ETEC - Rubens de Faria e Souza

Bachelor of Computer Science

Admission in 2021, currently in the 7th semester.

UFSCar - Universidade Federal de São Carlos - Sorocaba

PROJECTS

- Development institutional websites at BeetsJr., applying proficiency in HTML, CSS, and JavaScript while honing communication and public speaking skills in the commercial sphere. Additionally, I took on the role of project manager, demonstrating leadership and applying agile methodologies such as Scrum.
- Active participation in the UFSCar Programming Marathon training, where I developed crucial skills in software development and programming logic, fundamental to my professional journey.

SOFT SKILLS
